Date: Friday, August 08, 2014 10:30:47 AM

Richard:

I hope your health is improving.

I am sending this email to inform you that the EPA was able to obtain the requested sampling data in the requisite form that was collected at the Falcon Refinery site.

Thank you for your cooperation.

Gloria Moran

Assistant Regional Counsel (6RC-S)

Superfund Branch

U.S. Environmental Protection Agency, Region 6

Ms. Haywood:

Thank you for your email. I am sorry to hear that Richard is ill. I hope he feels better soon. Please let him know that the EPA can certainly wait until he returns to the office to address this issue.

9560933

Let him know, as well, that if the EPA is able to obtain the data in the requisite form before he returns to the office, I will so inform him in an email to this email address.

Thank you,

Gloria Moran

Ms. Moran:

Mr. Bergner has been out of the office ill since yesterday and is not certain he will return this week.

He asked that I e-mail you and let you know he will contact you as soon as he is back in the office.

Please contact me with any questions.

Regards,

Susan J. Haywood

Subject: Falcon Refinery - Request for Sampling Data - Your Action is Needed

Importance: High

Richard:

The EPA is seeking sampling data collected at the Falcon Refinery site. The EPA has been provided the sampling data in hard copies of the laboratory reports. The sampling data was generated by Kleinfelder.

We are seeking an electronic copy of the data from Accutest Laboratory in either the Excel or Access format. The EPA is seeking this information in a single file with all of the data or multiple files that correspond to each of the laboratory reports.

The EPA has contacted Stephen Halasz, Jonathan Carroll and Sylvia Garza (Accutest Lab), with no success in obtaining the electronic data from Accutest Lab.

As soon as possible, please obtain an electronic copy of the sampling data from Accutest Lab in Excel or Access format. For your information, please see the following data fields and job numbers that the EPA is seeking from Accutest:

Date Sampled
Client Sample ID
Lab Sample ID
Sample Type
Matrix
Method
CAS No.
Compound
Result
Qualifier
MQL
SDL
Units

Accutest Job Number	Sample Date	Report Date
